

Clean Vehicle Policy

This document provides the safe procedure to minimise the risk of the transfer of infection and/or virus from vehicle surfaces.

As the driver of the vehicle you are classed as the responsible person and are required to keep the vehicle in a clean and safe condition at all times.

Please use the following products to clean the vehicle on a daily basis:

AutoSmart G101 Cleaner:

This is to be used on all surfaces as a cleaning agent and is ideal for deep cleaning of all surfaces that you or anyone that may require access to the vehicle may touch.

This product can also be used to clean items that you store in the vehicle.

AutoSmart Disinfectant+

This product is to be used on all surfaces as a disinfectant after using the G101 Cleaner. Please pay attention to all surfaces especially surfaces that are frequently used

- Handles & Switches
- Driving controls (indicators, lights, wipers etc)
- Steering wheel
- External door handles
- Keys & fobs
- Any other

Anti-Bacterial Hand Gel

- A hand sanitiser has been provided and is to be kept in the vehicle for use before driving.
- Due to the difficulty in procurement of Hand Sanitisers at present, please use this product as described on the label to minimise wastage.

Safety of Use

Please read the information on the labels of all products and follow the safety information provided.

Refills

Refills of the Auto Smart products and hand sanitiser can be supplied from Head Office via your Site Manager

Periodic Vehicle Clean with Vector Fog C100+ Machine and/or IF6000 Ozone Generator

Your vehicle will be required to have a periodic clean with the C100+ Fog Machine and/or IF6000 Ozone Generator. You will be informed when this is to take place. Vehicles must be made available when requested. A visual inspection of vehicles will also be carried out at this time

Additional Information

Please ensure that you wash your hands regularly or use at all other times. Keeping your hands clean reduces the risk of the transfer of any virus.

Please ensure that these products are left in the vehicle at all times. Do not transfer the products to other vehicles or use them for other works.
